

A reflection for spring

Growing.
Seeds grow,
from hidden origins in the ground,
protected by hard shells,
softened by water,
warmed by the sun,
striving for light,
opening up to be fed for further growth.

Growing.
God wants us to grow,
from our secret inner selves,
protected by cynicism,
softened by Love,
warmed by the Spirit,
striving for light,
opening up to be fed for further growth.

God wants us to grow.
Are we willing to risk it?
